SUBJECT: Developmental Engine Fuel Variance

The Lubrizol Corporation has been granted a variance from the engine fuel standards, pursuant to Business and Professions Code, Section 13405, to market its PuriNOx™ fuel technology. The terms of the variance allow sales only to fleet type centrally fueled vehicles and equipment users while chemical and performance standards are being developed.

PuriNOx™ fuel is a water emulsified diesel fuel sold at centralized locations through a blending unit. The Lubrizol Corporation has informed the Division that the following are authorized fuel marketers and distributors of the PuriNOx™ fuel technology:

Marketer/Distributor	Blending Unit Location	Brand Name
Chevron U.S.A., Inc. Mike Ruddock, Project Manager	Chevron Montebello Terminal 601 S. Vall Avenue Montebello, CA 906040	Profomix™ Fuel
General Petroleum Anthony Misetich, Sales Manager	General Petroleum will market fuel produced by the Chevron Montebello Terminal	Profomix™ Fuel
Ramos Oil Company Kent Ramos, President	Ramos Oil Company 1900 North First Street Dixon, CA 95620	PuriNOx™ Fuel

Any questions regarding this variance should be directed to David Lazier, Weighmaster/Petroleum Branch Chief, at (916) 229-3044.

Sincerely,

Mike Cleary
Director
(916) 229-3000
